Webpage: ahghaffari.github.io | GitHub: github.com/ahghaffari

EDUCATION

Doctor of Philosophy (PhD) in Computer Science and Engineering *May 2023 - Present*
University of Oulu, Oulu, Finland
GPA: 4.5 / 5

Master of Science (M.Sc.) in Electrical Engineering (Digital Electronic Systems) *2017 - 2019*
Sharif University of Technology, Tehran, Iran
GPA: 18.20 / 20

Bachelor of Science (B.Sc.) in Electrical Engineering *2012 - 2017*
Amirkabir University of Technology (Tehran Polytechnic), Tehran, Iran
GPA: 16.24 / 20

High School Diploma in Mathematics and Physics *2008 - 2012*
Roshd1 Educational Complex, Tehran, Iran
GPA: 19.87 / 20

RESEARCH INTERESTS

Urban Computing
Machine Learning
Graph Neural Networks
Federated Learning
Generative AI

RESEARCH AND PROFESSIONAL EXPERIENCE

Visiting Researcher *September 2026 - November 2026*
Technical University of Denmark (DTU) *Kongens Lyngby, Denmark*

· Research visit to the Machine Learning for Smart Mobility (MLSM) group, hosted by Prof. Francisco Camara Pereira.

Doctoral Researcher *May 2023 - Present*
University of Oulu *Oulu, Finland*

· Conducting doctoral research in urban computing, machine learning, graph neural networks, multi-source urban data, and data-driven analysis of smart city systems.

· Designing and evaluating spatio-temporal graph neural network architectures for large scale urban data, implemented in Python with PyTorch and PyTorch Geometric on GPU computing clusters.

· Author and co-author of peer reviewed publications in international conferences and journals; the full list appears in the Publications section.

Computer Vision and Deep Learning Researcher *December 2019 - April 2023*
Fard Iran Co. *Tehran, Iran*

· Designed and implemented an algorithm for an Automatic Number Plate Recognition system.

· Designed and implemented motion detection and human detection applications for surveillance systems.

· Designed and implemented an algorithm to automatically optimize camera parameters, including gain and shutter speed, ensuring the capture of high quality car license plate images throughout the day and night.

· Designed and implemented a signal processing tool using neural networks to measure vehicle weights in a Weigh In Motion (WIM) system.

· Designed and implemented a driver assistance tool to detect abnormal driving using deep learning and GPS sensor data for comprehensive driving analysis.

· Contributed to the large scale successful deployment of more than 70 Weigh In Motion (WIM) sites across Iran; participated in on-site installation, system debugging, performance optimization, and technical support to ensure operational reliability.

Deep Learning Researcher *February 2020 - October 2022*
Institute of Water and Energy, Sharif University of Technology *Tehran, Iran*

· Designed and implemented algorithms using deep learning and machine learning methods for an air pollution prediction system.

Engineering Intern *July 2016 - September 2016*
Mahan Factory *Isfahan, Iran*

· Completed an industrial summer internship as part of the B.Sc. program in Electrical Engineering.

· Worked with the engineering team on electrical and electronic systems used in the production line, including measurement, testing, and documentation tasks.

THESIS PROJECTS

M.Sc. Thesis *2017 - 2019*
360-degree Video Transmission over Network using Coded Caching

Supervisor: Assoc. Prof. Mohammad Sharifkhani

B.Sc. Thesis *2016 - 2017*
Design and Fabrication of an Active Noise Cancellation System for Environmental Disturbing Sounds

Supervisor: Prof. Hassan Kaatuzian

TEACHING EXPERIENCE

Teaching Assistant *Spring 2024, Spring 2025, Spring 2026*
Big Data Processing and Applications, M.Sc. Course *University of Oulu*

· Faculty of Information Technology and Electrical Engineering (ITEE)

· Instructor: Adj. Prof. Ekaterina Gilman

Teaching Assistant *Spring 2025*
Network Analysis and Graph Machine Learning, M.Sc. Course *University of Oulu*

· Faculty of Information Technology and Electrical Engineering (ITEE)

· Instructor: Prof. Joydeep Chandra

Teaching Assistant *Spring 2019*
Computer Vision, M.Sc. Course *Sharif University of Technology*

· Electrical Engineering Department

· Instructor: Assoc. Prof. Hoda Mohammadzadeh

Teaching Assistant *Fall 2018*
Computer Architecture, B.Sc. Course *Sharif University of Technology*

· International Campus

· Instructor: Asst. Prof. Hamed Farbeh

Teaching Assistant *Fall 2018*
Advanced Computer Architecture, M.Sc. Course *Sharif University of Technology*

· Electrical Engineering Department

· Instructor: Dr. Mohammadreza Movaheddin

Mathematics and Physics Teacher *2012 - 2015*
Roshd1 Educational Complex *Tehran, Iran*

· Taught mathematics and physics at high school level.

CONFERENCES, WORKSHOPS, AND SUMMER SCHOOLS

- **ACM CIKM 2026**, Rome, Italy. First author and presenter of a paper, Chair of "the 2nd International Workshop on Graph-Augmented LLMs (GaLM): Bridging Language and Structured Knowledge" workshop at CIKM. *Fall 2026*
- **ARES 2026**, Linköping, Sweden. Co-author and oral presenter of a paper. *Summer 2026*
- **IEEE MDM 2026**, Athens, Greece. First author and oral presenter of a paper. *Summer 2026*
- **ACM CIKM 2025**, Seoul, South Korea. Participated as a student volunteer and first author presenter of a paper. *Fall 2025*
- **IEEE ICNSC 2025**, Oulu, Finland. Participated as an author of a paper. *Fall 2025*
- **NVIDIA Workshop**, University of Oulu, Finland. Participated in the NVIDIA workshop on Fundamentals of Accelerated Computing with CUDA Python. *Fall 2024*

- **ACM IoT 2024**, Oulu, Finland. Participated as a student volunteer helping the organizing committee. *Fall 2024*
- **ACM KDD 2024**, Barcelona, Spain. Full participation with a poster presentation. *Fall 2024*
- **12th UBISS Summer School**, University of Oulu, Finland. Full participation and worked as a liaison student helping organizers in the "Care-full! More-than-human Urban Futures" workshop. *Summer 2024*
- **6G Symposium**, Levi, Finland. Full participation. *Spring 2024*
- **IEEE PerCom 2024**, Biarritz, France. Full participation with a poster presentation. *Spring 2024*
- **11th UBISS Summer School**, University of Oulu, Finland. Full participation in the "Smart Internet of Things (IoT) Wireless Connectivity in 5G and Beyond" workshop. *Summer 2023*
- **IEC2-2019 Sharif**, Sharif University of Technology, Tehran, Iran. Attended KNIME, Tableau, and Pandas workshops. *Summer 2019*
- **Deep Learning Summer School**, University of Tehran, Tehran, Iran. Full participation. *Summer 2018*
- **TensorFlow Workshop**, Sharif University of Technology, Tehran, Iran. Full participation. *Summer 2018*

AWARDS AND HONORS

- ACM CIKM Student Travel Grant for the 34th ACM International Conference on Information and Knowledge Management (CIKM), Seoul, Republic of Korea, 2025.
- Tauno Tönning Foundation personal research grant, 2024.
- IEEE Student Travel Grant for the IEEE International Conference on Pervasive Computing and Communications (PerCom), Biarritz, France, 2024.
- Four year fully funded doctoral researcher position through competitive selection at the University of Oulu, 2023.
- Iran's National Elites Foundation Award, 2019.
- National graduate and undergraduate full scholarships.
- Ranked within the top 0.5 percent among more than 31,000 participants in the Iranian Electrical Engineering graduate university entrance exam.
- Ranked within the top 0.5 percent among more than 220,000 participants in the Iranian Mathematics and Physics university entrance exam.

CERTIFICATIONS AND COURSES

- **Professional Certifications and Courses**, Neo4j GraphAcademy
  Profile: graphacademy.neo4j.com
- **Knowledge Graphs: Foundations and Applications**, openHPI *Issued April 2026*
  Certificate: openHPI
- **Foundation: Introduction to LangGraph (Python)**, LangChain Academy *Issued December 2025*
  Certificate: academy.langchain.com/certificates/os5jif5euk
- **AI Agents Intensive Course**, Google *Issued November 2025*
- **Generative AI Intensive Course**, Google *Issued September 2025*
- **Fundamentals of Accelerated Computing with CUDA Python**, NVIDIA *Issued October 2024*
  Certificate: learn.nvidia.com/certificates
- **Machine Learning Specialization**, Coursera *Issued October 2022*
  Certificate: coursera.org/account/accomplishments
- **Professional Project-Oriented Course in Backend Development with Django**, Quera *Issued December 2021*
  Certificate: quera.org/certificate/dW9TlTmL
- **Deep Learning Summer School**, University of Tehran *Issued August 2018*
  Certificate: available on request

- **Deep Learning with TensorFlow**, Sharif University of Technology *Issued July 2018*
  Credential ID: AC-97-EE-10001

TECHNICAL SKILLS

- **Deep Learning and Graph Neural Networks:** PyTorch, PyTorch Geometric, Hugging Face, TensorFlow.
- **Agentic AI and Large Language Models:** LangGraph, LangChain, Google ADK, OpenAI and other LLM provider APIs, RAG and GraphRAG pipelines.
- **Big Data and Distributed Systems:** Apache Spark, PySpark.
- **Databases and Knowledge Graphs:** PostgreSQL, Neo4j, Cypher, SPARQL, RDF.
- **MLOps and Cloud Native:** Docker, Kubernetes, Prometheus, Grafana, Weights and Biases, Git.
- **Programming Languages:** Python, C, C++, MATLAB.

LANGUAGES

- **Persian:** Native
- **English:** Full professional proficiency
- **Finnish:** Beginner
- **Swedish:** Beginner
